

Lion 201: 10.7 Server Essentials

Mac OS 10.7 Course \$1500 Three-day Hands-on Course 9am-5pm

Overview

OS X Server Essentials is a three-day, hands-on course designed to give technical coordinators and entry-level system administrators the skills, tools, and knowledge to implement and maintain a network that uses OS X Server. Students learn how to install and configure OS X Server to provide network-based services, such as file sharing, web and wikis. Tools for efficiently managing and deploying OS X are also covered. The course is a combination of lectures and hands-on case study exercises that provide practical real-world experience.

Who should attend

This course is designed for help desk specialists, technical coordinators, and entry-level system administrators who implement and maintain networks using OS X Server.

Prerequisites

Students are expected to have a solid understanding of OS X, have experience with OS X in a network environment, and basic OS X troubleshooting experience or Lion 101 on their record.

Certification

Demonstrate your knowledge of working with and maintaining networks on computers running Mac OS X v10.7. The Apple Certified Technical Coordinator (ACTC) 10.7 certification is granted on successful completion of the Mac OS X Server Essentials v10.7 exam (not included in course).

UPON COMPLETION OF ANY APPLE CERTIFIED TECHNICAL TRAINING COURSE AT FIRSTTECH,
YOU ARE ELIGIBLE FOR \$50 OFF THE EXAM AT FIRSTTECH'S TESTING CENTER.
