FirstTech Customized Training

Curriculum tailored to your needs

Please contact FirstTech Training (numbers listed below) for custom tailored courses in Apple, Adobe or FileMaker. FirstTech can customize beginning, intermediate and advanced levels of curriculum, or tailor modules utilizing actual working files. Curriculum customization can be based upon software application functionality and/or by workflow, and/or by role.

One-on-One, On-site Training

FirstTech offers a wide variety of training options that include orientations for small or large groups, hands-on application and one-to-one training. FirstTech will customize training to your level of understanding and present at your site or at our state-of-the-art facility.
